Definition of Terms on Transcript

Ehrs	Earned credit hours. Sum of credits for successfully completed courses.

QPts	Quality Points. Sum of points for semester.
Pts	Points = Earned grade multiplied by course credit value.

College Grading System and the Weighted Grade Point Average (GPA)

Percentage grades are used to describe the achievement level in each course. As part of the GPA calculation, these grades are weighted by multiplying the grade achieved (GRD) by the credit value (CRED) assigned to the course. This calculation determines the points (PTS) for that course.

The last line of each semester on the transcript reflects a semester GPA. The transcript total area displays the GPA for all courses taken. If a certificate, diploma, or applied degree has been granted, a degree GPA appears in the upper left "degree awarded" area of the transcript. The semester GPA is calculated by summing the points for the semester (QPts) and dividing by the total semester credits (GPA-Hrs). The institution GPA is calculated in the same way and includes all courses taken at Loyalist. The degree GPA includes only the courses required to complete the certificate, diploma or degree and is calculated at the time of graduation. If courses are taken more than once, the best grade is used in the calculation of the degree GPA. Letter grading symbols are not calculated in the weighted grade point average.

For most programs, an overall GPA of 60% is required for graduation. An overall GPA of 65% is the minimum requirement for the Applied Degree in Human Services Management, Nursing and Practical Nursing programs.

Prior to the Fall of 2004, the official College grade was a letter grade. Upon introduction of a new Student Information System, these letter grades were converted to a numeric grade value as indicated on the chart below:

LETTER GRADE	CONVERSION GRADE
A+	95
A	85
B	75
C	65
D	55
F	0
